THE LATEST LAUNCHES AND SMART BUYS DELIVERING LUXURY TO KITCHENS AND BATHROOMS

TAKING SHAPE

We fell head over heels for Cesar's new Tangram kitchen collection at EuroCucina in Milan last year, so we're not surprised Espresso Design has chosen it to headline at its recently rebranded showroom, Cesar by Espresso, in London's Chelsea Harbour. Inspired by Tangram, the ancient Chinese puzzle, this modular range consists of five curved elements that can be combined with straight elements to form multiple configurations. A statement island can be created or a single run to be placed against a wall or around awkward corners. Cesar by Espresso kitchens start from £30,000. →

Cesar by Espresso showroom, featuring the curvy Tangram kitchen island, launches in Design Centre, Chelsea Harbour
